Transform your World

Preliminary outcomes of the sessions (until 14:30)

Participants to “Transform Your World” are **already contributing** to the SDGs in many ways. Today, they had the opportunity to **find partners** they need to contribute even more or better to the SDGs. During the workshops, participants identified shared aims and agreed on **joint actions** towards the SDGs. These are reported below as a **basis for follow-up** by themselves, facilitated by the SDG Charter. This overview reflects the outcomes of today’s sessions, without being comprehensive. The list remains **open** for adjustments and additions. In the course of 2017, the SDG Charter will offer participants online and offline ways to continuously **share** both their existing and new activities on the SDG’s, **discuss progress**, learn from each other and agree on the **next steps**.

Session & related SDG	Shared aims	Joint actions / next steps (lead organization between brackets)
Poverty  	Reduce poverty in NL: Improve inclusion in NL:	We will always include the voices of our target groups in our cities
Sustainable Agriculture and Food   	Create a science-based vision, definition and actions for sustainable food and agriculture:	Explore SDG Charter Food partnership with 25+ organisations (Natuur&Milieu, TruePrice, Unilever, HAS, EZ, Rijnconsult, and many others)
